Ajaymon

Bangalore | aj.design.mon@gmail.com | 7010845504 | **Portfolio** | **linkedin**

Summary

Product Designer focused on creating intuitive, accessible, and responsive experiences across web and mobile platforms. Skilled in the end-to-end design process from research, wireframes, and prototypes to high-fidelity UI and developer handoff. Strong expertise in design systems, usability testing, and simplifying complex workflows into elegant, user-friendly solutions..

Experience

Junior Product Designer, Karbon Business (Forex) · Bangalore Jul 2024 – Present

- **Led end-to-end** feature design from wireframes through high-fidelity UI to developer handoff using Figma and **ANT Design components**, simplifying complex **fintech workflows**.
- Conducted **Design QA**, enabling **QA teams** to perform manual testing more effectively and ensuring pixel-perfect implementation.
- Attended calls with **BD** and **AM** teams to gather **user feedback** and translate insights into design improvements.
- Designed and optimized the **User Dashboard** and **Bank Operations Dashboard (internal tool)**, improving efficiency and satisfaction by collecting and acting on feedback from internal teams.
- Conducted **usability testing** and **research** to refine interactions, boosting retention and enhancing user satisfaction.
- Built and maintained a scalable **design system** to ensure consistency across web and mobile platforms.
- Collaborated with **product managers** and **engineers** to define **UX flows** and maintain a cohesive visual identity.
- Delivered responsive and accessible interfaces, advocating for inclusive design practices throughout the product lifecycle.

UI/UX Designer Intern, Skillto · Remote 2024 – Jul 2024

- Designed web/mobile app interfaces in collaboration with product and dev teams.
- Conducted user research and A/B testing to refine designs.
- Delivered wireframes, prototypes, and high-fidelity UIs with improved accessibility.

Data Engineer, MBRDI(EX) · Bangalore Mar 2023 – Jan 2024

- Analyzed and visualized data to support Algorithm team to create datasets.
- Strengthened analytical thinking and cross-functional collaboration.

Key Skills

- **Design Process:** User Research, Usability Testing, A/B Testing, Journey Mapping, Design Thinking
- **Product Design:** Wireframing, Prototyping, Interaction Design, Microinteractions, Accessibility & Responsive Design
- **Design Systems:** Figma Components, ANT Design, Material Design, Scalable UI Libraries
- **Collaboration:** Design QA, Developer Handoff, Cross-Functional Communication (PM, Engineering, Business Teams)
- **Tools and Platforms:** Figma, Framer, Webflow, Miro, Jira, Photoshop, Illustrator, Spline.

Education

MAMCET, Trichy, B.E. – Computer Science Engineering Jun 2016 – Spet 2020

- First Class (71.7 GPA)
- **Coursework:** Computer Architecture, Comparison of Learning Algorithms, Computational Theory

Certifications

UI/UX and Product Design – Skillto (6 months)

Technologies: User Experience Design Essentials
